Test 3

If you drink enough water, your brain works better. If you don't drink enough water, you get dehydrated. You feel tired, and you don't have a lot of energy. You can get a headache or find it difficult to think. When you are hydrated, it means you are getting enough water. It's good for your joints, your bones and your body temperature. *Question 1*

Test 3

A habitat is a place with a particular kind of climate and landscape. There are different habitats all over the world. They have different animals, plants and non-living things. *Question 2*

Revision

4

Test

It's important to eat the right food, but it's also important to look after food to keep it fresh and safe. We need to preserve and store food. If we don't store food properly, it can go bad, and this makes us sick. Now, we can use fridges and freezers to store food. These need electricity to work.

Question 1

4

Test

Egypt's national football team has a world record. It is for winning the Africa Cup of Nations the most times. Our team won seven times in 1957, 1959, 1986, 1998, 2006, 2008, and 2010!

Question 2

Revision

5

Test

The bottom layer of the skin attaches your skin to your bones and muscles. The sun can damage our skin. We can get a sunburn. It's important to wear sunscreen to protect our skin. Do you wear sunscreen?

Question 1

5

Test

In a flood, there is an overflow of water onto land that is usually dry. This can happen in heavy rain or a storm. Floods can destroy natural habitats as well as people's homes.
